

10 DISTRIBUTION LIST

Since publication of the Draft Environmental Impact Report (EIR)/Environmental Impact Statement (EIS), the following substantive changes have been made to this chapter:

- This chapter was revised to reflect notice and distribution of the Final EIR/EIS, including updates to the introduction to Chapter 10, Distribution List, and Section 10.1, Repository Locations.
- Section 10.2, Federal Agencies, was revised to consistently list the appropriate cabinet agencies.
- Section 10.4, Elected Officials, was updated to include officials elected in 2020 after publication of the Draft EIR/EIS.
- Section 10.8, Schools and Districts, was revised to update the points of contact at each school and school district.

The distribution of the *San Francisco to San Jose Project Section Final Environmental Impact Report/Environmental Impact Statement* emphasizes the importance of providing the environmental documents in a number of different formats so the information is fully accessible to members of the public. The distribution strategy includes the use of electronic media to support cost-effective, broad availability to the public and interested parties. The Final EIR/EIS (Volumes 1–4) is available on the California High-Speed Rail Authority’s (Authority) website (www.hsr.ca.gov). Printed and/or electronic copies of the Final EIR/EIS will be available at the repositories listed in Section 10.1 during hours the facilities are open (open days/hours may be reduced for compliance with coronavirus public health and safety directives). Printed and/or electronic copies of the Final EIR/EIS are also available for review during business hours at the Authority’s Northern California Regional Office at 100 Paseo de San Antonio, Suite 300, San Jose, CA 95113, and at the Authority’s Headquarters at 770 L Street, Suite 620 MS-1, Sacramento, CA 95814. A copy of the Final EIR/EIS may also be requested by calling (800) 435-8670 or submitting a request by mail or at www.buildhsr.com/contact_us/.

All persons, agencies, and organizations listed in this chapter have been informed of the availability of the Final EIR/EIS and locations to obtain or review copies. Notice of availability of the Final EIR/EIS was published in the *Federal Register*. Repositories listed in Section 10.1 were sent printed and electronic copies of the Final EIR/EIS. Cooperating federal agencies also received a copy of the Final EIR/EIS in their preferred format. Each county through which the San Francisco to San Jose Project Section (Project Section, or project) would pass received an electronic copy of the Final EIR/EIS, and a copy of the Notice of Availability (NOA) was displayed at each of the County Clerk offices, either in hardcopy or electronic format on their website. Other federal agencies, state agencies, and interested parties listed in the following subsections have been mailed a copy of the NOA of the Final EIR/EIS. The NOA and the Final EIR/EIS Summary were translated into the primary languages of the project vicinity—Spanish, Mandarin, Vietnamese, and Tagalog. The NOA also serves as notification for an upcoming Authority Board meeting and provides information about how to access the Final EIR/EIS. Federal, state, and county elected officials; mayors of cities with possible stations; potentially affected local agencies; local elected officials; agency representatives; owners and occupants of property contiguous to the parcel or parcels on which the project would be located; and all others on the project mailing list who are not listed in this chapter have received a copy of the NOA. The NOA for the Final EIR/EIS was also distributed through the Authority’s social media accounts and by email to individuals who had previously registered to receive information via email about the document.

In light of the COVID-19 pandemic, all notification materials advise the public to refer to the Authority’s website for the latest information regarding availability of the Final EIR/EIS and consideration of the document at an upcoming Authority Board meeting.

The sections in this chapter include eight main groupings for notification distribution: repository locations, federal agencies, state agencies, elected officials, regional/local agencies,

organizations and businesses, Native American contacts, and schools and districts. Locations and point of contact names are noted where appropriate.

10.1 Repository Locations

This section lists the repositories in alphabetical order by city location. The COVID-19 pandemic has resulted in widespread closure of government and public facilities, including local libraries the Authority identified as repositories where the public would have the opportunity to review the Draft EIR/EIS, San Francisco to San Jose Project Section Revised Draft EIR/Supplemental Draft EIS, and Final EIR/EIS. These facilities received the Final EIR/EIS for public review if they were open to the public and available to safely provide such services. The Authority's Headquarters in Sacramento and the Northern California Regional Office in San Jose are open and serving as document repositories.
