

## 16 INTRODUCTION TO VOLUME 4

This introduction explains the organization of and how to reference comment letters and responses to comments included in this Final Environmental Impact Report/Environmental Impact Statement (EIR/EIS). The comments and responses to comments section contain public comments on the 2022 Draft EIR/EIS for the Palmdale to Burbank Project Section of the California High-Speed Rail (HSR) Project and responses.<sup>1</sup>

### 16.1 Introduction

As part of the public review process for the 2022 Draft EIR/EIS, the California High-Speed Rail Authority (Authority) received 481 written comment letters and verbal comments at public hearings; these 481 submissions contained 2,489 individual comments on the Draft EIR/EIS and on the proposed project generally. Many of these comments raise similar issues. The Authority has therefore prepared a chapter of standard responses to address the most frequently raised issues. The standard responses provide comprehensive responses to an issue so that multiple aspects of the issue are addressed in an organized manner in one location. This reduces repetition of responses. When an individual comment raises an issue discussed in a standard response, the response to the individual comment includes a cross-reference to the appropriate standard response. The standard responses are provided in Chapter 17. A translated summary of individual standard responses to comments may be provided upon request, to the extent practicable.

### 16.2 Individual Responses to Written and Verbal Comments

In addition to providing the standard responses, the Authority has provided responses to individual written and verbal comments.

The individual letters and comments included and addressed are organized and numbered as follows:

- Federal Agencies (Chapter 18)
- State Agencies (Chapter 19)
- Elected Officials (Chapter 20)
- Local Agencies (Chapter 21)
- Business and/or Organizations (Chapter 22)
- Individuals (Chapter 23)

Each written submission and oral presentation can be found under the appropriate category by name, or if representing an organization, the name of their organization. Each written comment letter sent to the Authority was assigned a number. Each comment letter and public hearing transcript has brackets in the left-hand margin with identification numbers for each comment. Some letters or oral statements have been treated as a single comment, whereas in other submissions, multiple comments have been identified, which have been numbered and responded to individually. The responses to comment(s) are located at the end of each letter or transcript. Each response is labeled with the letter/testimony identifier and comment number that relates back to that particular bracketed comment.

A number of written comment submissions included lengthy attachments to the comment letters or provided web links to supporting materials. In preparing the Final EIR/EIS and responses to comments, every attachment provided with comment submissions or identified by a web link was

<sup>1</sup> References to the Council on Environmental Quality National Environmental Policy Act regulations (Code of Federal Regulations Title 40, Parts 1500 to 1508) in the responses to comments are to the Council on Environmental Quality regulations promulgated in 1978 and in effect prior to September 14, 2020.

reviewed and evaluated. In those cases where attachments included additional comments on the Draft EIR/EIS, the comments were delineated and responded to. In those cases where attachments or web links contained information or studies in support of the written comment submission, the material was considered in developing the response. All attachments submitted as part of the comments have been reproduced in this Final EIR/EIS.

The table provided below includes a listing of the contents of Volume 4. For Chapter 17, the order of the standard responses is provided. For Chapters 19 through 24, the commenter name, the submission number, and the page within the applicable chapter of Volume 4 where they can be found are provided.
