

Developing a System Access Policy

Transit-Land Use Committee

January 31, 2017

Purpose of today's discussion

- ▶ Summarize access planning work to date
- ▶ Set the table for further discussion of criteria for access investments
- ▶ Propose a process & schedule for achieving access investment outcomes

Access planning work to date

- ▶ Assessed current conditions
- ▶ Developed targets for how people will get to and from stations
- ▶ On-going research with partner agencies
- ▶ Working with cities on station area plans

Considerations & tradeoffs

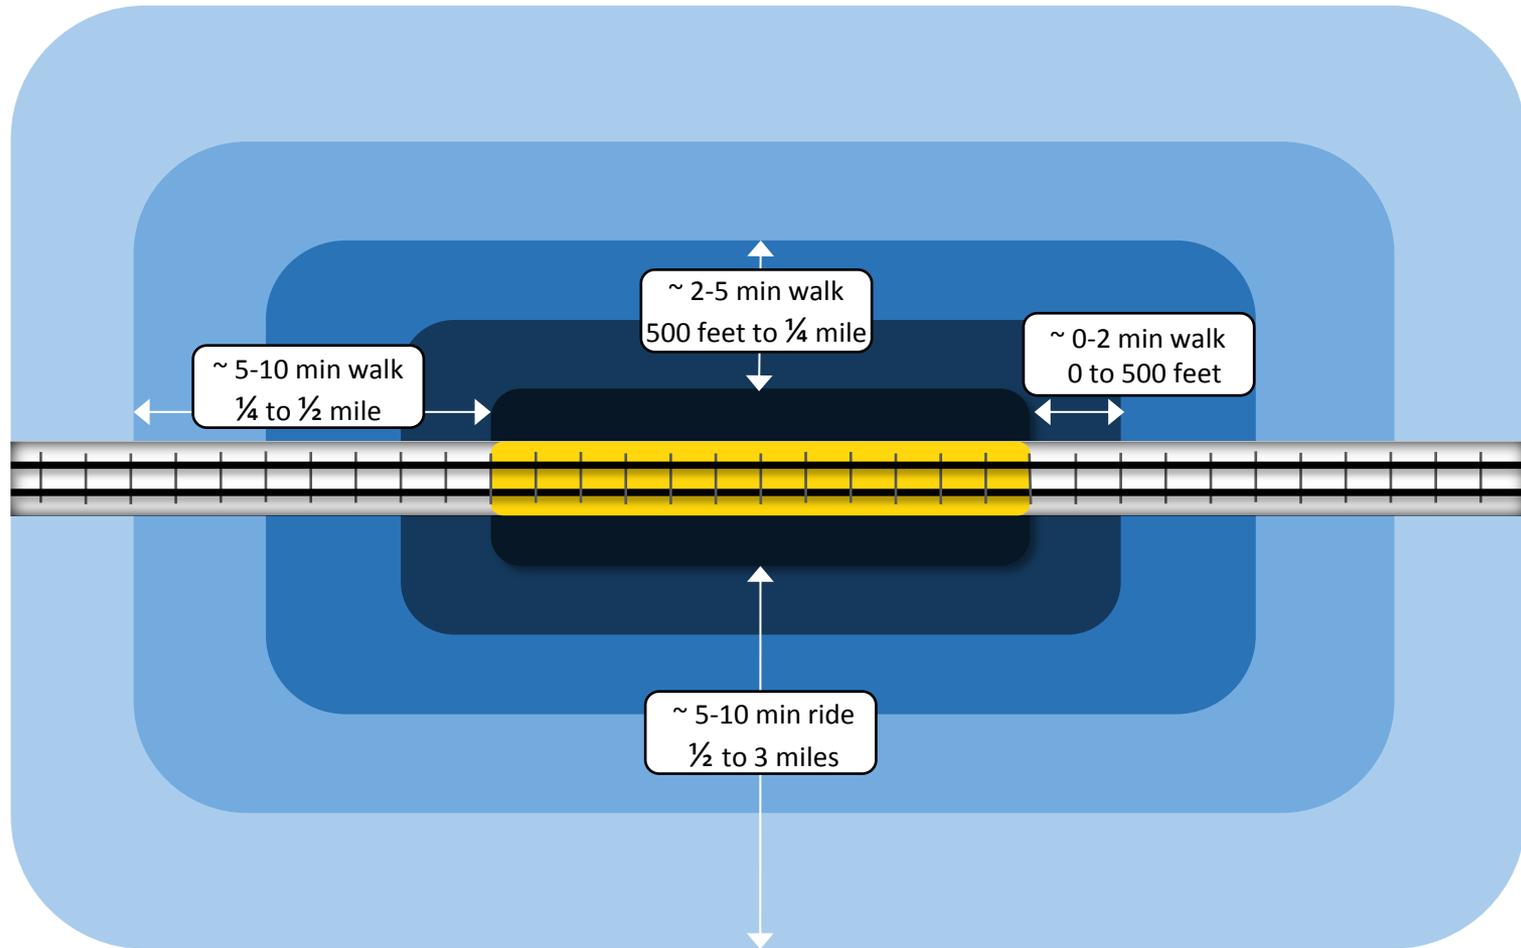

- ▶ Station ownership & space availability
- ▶ Local conditions and HSR system needs
- ▶ Funding opportunities
- ▶ Market-based and service-oriented solutions
- ▶ Character and uniqueness of station communities
- ▶ Evolution of access behavior over time

Responding to changing access behavior

Station	Primary access modes today				Future emphases with HSR			
	Drive & Park	Drop-off & Pick-Up	Rail & Bus	Bike & Walk	Drive & Park	Drop-off & Pick-Up	Rail & Bus	Bike & Walk
San Francisco			◇	◇		◇	◇	◇
Millbrae	◇		◇			◇	◇	
San Jose	◇	◇				◇	◇	◇
Gilroy	◇			◇	◇	◇		
Merced		◇			◇	◇		◇
Fresno		◇				◇		◇
Kings-Tulare	◇	◇				◇		
Bakersfield		◇				◇		
Palmdale	◇				◇	◇		
Burbank	◇				◇	◇		
Los Angeles		◇	◇			◇	◇	◇
Norwalk	◇				◇	◇		
Fullerton	◇	◇				◇	◇	◇
Anaheim	◇	◇				◇	◇	

Station access priority framework

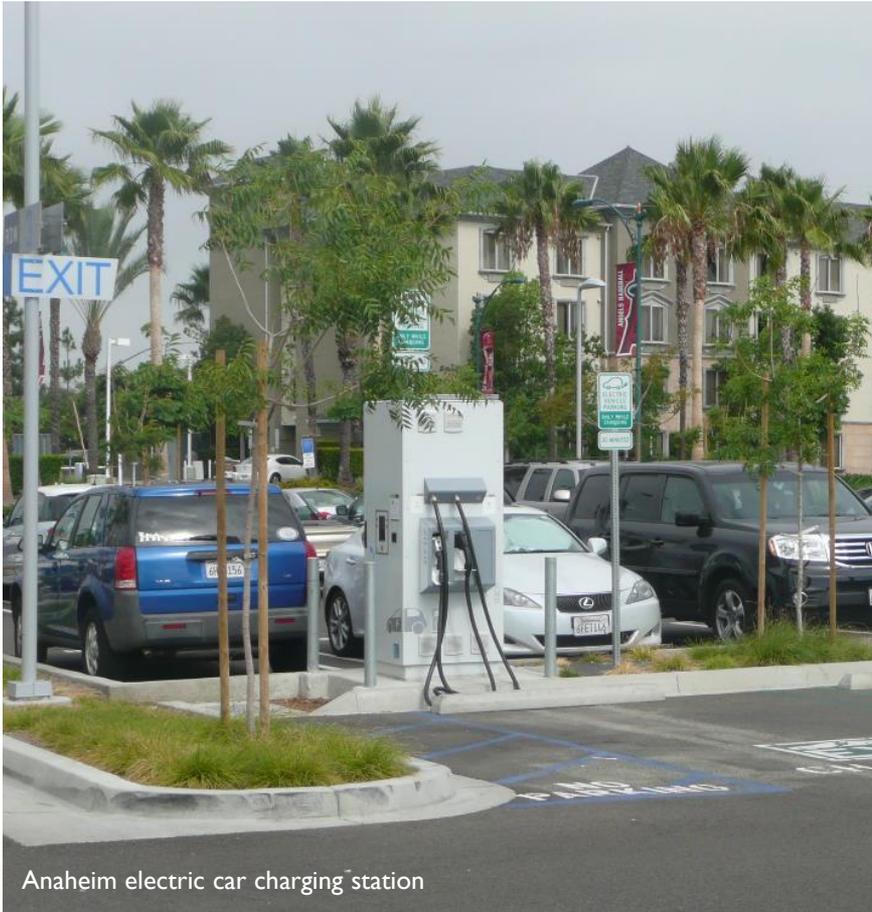

- Platform Zone:** pedestrians and rail-to-rail transfers
- Station Zone:** pedestrians and commercial delivery access
- Edge Zone:** pedestrians, bicycles, public transit & private transit/for-hire/private auto pick-up/drop off (PU/DO)
- TOD Zone:** pedestrians, bikeshare/carshare/HOV parking, private transit/for-hire queueing for PU/DO, highest cost parking
- Parking Zone:** private auto queueing for PU/DO; moderate cost parking
- Remote Access Zone:** rental car facilities; lowest cost parking

Developing criteria for access investments

- ▶ Targets & outcomes should be aspirational but achievable
- ▶ Prioritize to address potentially competing goals
 - e.g. increase ridership & revenue, provide community benefit
- ▶ Timing of investments
 - pre-operation, opening day, mature system
- ▶ Location of investments
 - at the station, adjacent, within a mile
- ▶ Leverage market-based solutions for the HSR enterprise
 - e.g. charging for parking

Developing criteria for access investments

Anaheim electric car charging station

January	<ul style="list-style-type: none">• Introductory discussion
February	<ul style="list-style-type: none">• Present initial policy language & rationale
March	<ul style="list-style-type: none">• Revise policy to reflect committee direction• Continue discussion of criteria, targets & best practices
April-May	<ul style="list-style-type: none">• Solicit review and feedback
June	<ul style="list-style-type: none">• Summarize feedback and present to the committee
After June	<ul style="list-style-type: none">• Revise policy to reflect feedback & TLU direction• Recommend final policy to Board• Board adopts policy
