

California High-Speed Rail Authority
Industry Forum for Request for Qualifications for Track and Systems
RFQ No. HSR 19-13

Monday, August 5, 2019

9:00 a.m. to 2:30 p.m.

Department of Health Care, Auditorium
 1500 Capitol Avenue Sacramento, CA 95814

The California High-Speed Rail Authority (Authority) is seeking a design-build-maintain contractor to submit qualifications to bid on RFQ No. HSR 19-13. The scope of work will include design and construction of trackwork, railway systems, electrification, as well as testing and commissioning.

The Track and Systems contract, as proposed, will also include a 30-year term of maintenance for both the underlying civil works and track and systems work, which would include construction of necessary maintenance facilities. The Track and Systems Contractor would perform interface and integration duties with respect to the Authority’s other Contractors. As proposed, the Track and System work would be issued through multiple Notices to Proceed (NTP), ranging from San Francisco to the Central Valley.

The Authority started the process of finding a contractor for this construction phase by formally issuing a Request for Qualifications (RFQ) for design-build-maintain services on Wednesday, July 17, 2019. Firms will have until Thursday, September 5, 2019, 12:00 p.m. Pacific Time to submit their statements of qualifications.

Please join representatives from the Authority at this Industry Forum to network and learn more about the Track and Systems procurement. Learn more about the RFQ by visiting the Authority’s [Track and Systems](#) webpage. Additionally, learn more about the Authority’s Small Business Program, small business compliance, reporting requirements and discuss small business certification during our Small Business Informational Workshop. Any questions regarding the Track and System procurement should be directed to TS1@hsr.ca.gov.
